The gateway connecting real world and Web3.”

REWARD SOURCE & INTEGRITY

Reward source: Ecosystem allocation (45% of total supply) + operational revenue. **Zero deduction** from referred users' MTT

FRAUD PREVENTION

Device authentication, anomaly detection, condition-based reward confirmation

Fraud prevention and affiliate rules ensure healthy expansion

*Reward rates and conditions are tentative and subject to change. This document is for informational purposes only and does not constitute investment solicitation.

CORPORATE PARTNER | B2B2C PROGRAM

Connecting the real health industry with Web3. Companies expand, users continue, ecosystem circulates.

01

PHARMACIES & DRUGSTORES

- Distribute "Starter Cards" (referral QR + first-purchase NFT 10% off) at storefront/dispensary counter.
- Linked to in-store measurement events.

PARTNER BENEFIT

Increased footfall, health product sales, continued customer touchpoints, referral rewards

MEDI 3.0 BENEFIT

Trusted reach through pharmacist recommendations, acquire middle-aged/senior users hard to reach via app ads

02

HEALTH DEVICE MAKERS

- Bundle sales with physical devices (scales, thermometers, blood pressure monitors) + NFT redemption codes.
- Official device linkage means "records from linked devices get +α incentive rate"

PARTNER BENEFIT

Differentiate as "earning scale," continuous app-based customer engagement post-purchase

MEDI 3.0 BENEFIT

Retail/e-commerce channels become acquisition pipelines, real measured data strengthens fraud prevention and data value

03

FITNESS GYMS

- Gyms hold NFTs as corporate entities, rent to members as enrollment perks (30% owner share = gym revenue).
- Mutual perks like "20-day monthly records = next month membership discount"

PARTNER BENEFIT

Reduced churn (recording habits + token rewards drive retention), rental revenue share

MEDI 3.0 BENEFIT

Acquire high-quality users with exercise habits, easy 20-day condition = higher data value

04

CORPORATE WELLNESS & MUNICIPALITIES

- Companies bulk-purchase NFTs as employee benefits (large primary sale). Provide anonymized department-level dashboards for HR.
- Municipalities integrate via API with health point programs

PARTNER BENEFIT

Reduced medical costs/absenteeism, evidence for Health Management Certification, increased engagement in existing health programs

MEDI 3.0 BENEFIT

Acquire hundreds/thousands of quality users per contract, near-impossible fraud registration via employee verification

REWARD FLOW (3-STEP PROCESS)

1

Corporate Verification & Code Issuance

- KYB (Know Your Business) verification
- Dedicated referral codes per location
- Track referrals per branch

2

Rewards at Two Confirmation Points

POINT A • ACTIVATION

Referred user first achieves 20+ monthly records
→ 300 MTT equivalent/person (one-time)

POINT B • NFT PURCHASE

Referred user buys NFT item
→ 8% of sale price

3

Choose Receipt Method

Ad Credit (Recommended)
Exchange at 1.2x rate for in-app ad inventory. Advertise to health-conscious users

MTT
6-month lockup + linear release over 6 months

* No payment for signups or downloads

ECOSYSTEM PROTECTION DESIGN

One-Time Payments Cap Liabilities

Corporate rewards are one-time per user. No continuous liabilities, defined future payments

Lockup + Monthly Cap

MTT receipts have 6-month lockup + linear release. Monthly per-company caps eliminate sell pressure

Ad Credit Priority for Internal Circulation

Rewards convert to ad demand (AD MODEL/P13), tokens stay in-ecosystem

Clawback

Cancellations, refunds, or fraud within 30 days forfeit corresponding rewards. Rate differential (8% < individual max 10%) deters coding abuse

CORPORATE PARTNER TIERS (GROW TOGETHER)

TIER	CONDITION (CUMULATIVE ACTIVATIONS)	PERKS
Partner	At contract signing	✓ Base reward / Ad credit 1.2x rate
Certified Partner	300+ activations	✓ NFT wholesale discount (bundle procurement) / Joint promotion inventory
Strategic Partner	3,000+ activations	✓ Ad credit 1.5x rate / Data reports / Joint product development priority

* Activations = cumulative referred users who first achieved 20+ monthly health records

* Reward source: Ecosystem allocation (45% of total supply) + operational revenue. **Zero deduction** from user MTT earnings

Rewards become ad demand, referrals become data value. Corporate partnerships themselves strengthen the ecosystem.

*Reward rates and conditions are tentative and subject to change. This document is for informational purposes only and does not constitute investment solicitation.
